

## DISCLAIMER

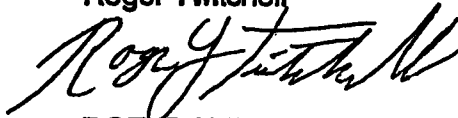

This book was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, expressed or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product or process disclosed, or represents that its use would not infringe privately owned rights. References herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.

January 31, 2001

Subject: Notes on the use of "Guidelines for Revegetation of Disturbed Sites at the Idaho National Engineering Laboratory" (DOE/ID-12114), June 1989.

Only native plant species listed on Table 2 (Page 14) or listed or discussed in other areas of the subject report are approved for reseeding and site restoration on the INEEL. The seeding of any non-native plant species such as the varieties of crested wheatgrass or Russian wildrye or other grass, forb or shrub species is expressly prohibited. The use of seed mixes containing non-native species is likewise prohibited. If there are any questions concerning the seeding or recovery of any area on the INEEL please contact Jack Depperschmidt at 208-526-5053, Bob Jones at 526-6788, or myself at 526-0776.
